- **Inlet/outlet**
3/8" Outer dimension tubes
- **Power**
1300 watts
- **Motor compressor**
120 volts, 60 Hz

ORDERING INFORMATION

MODEL	PART NO	DESCRIPTION
Solaria	EV931840	Hot water appliance

GENERAL INSTALLATION / OPERATION / MAINTENANCE REQUIREMENTS

Not recommended for use with a Reverse Osmosis (RO) water filtration system – eventual damage to the pump will result. To prevent damage, install with a booster pump or autoclave.

Install the appliance away from heat sources and direct sunlight.

Do not install the appliance outdoors or in damp locations.

Minimum installation space – 2.5 inches from adjacent surfaces for proper air circulation around appliance.

The appliance generates heat, so external venting may be required when it is installed in a cabinet.

DRINKING WATER FAUCETS

Faucet and filtration system sold separately. Vented faucet required.

DIMENSIONS

This water appliance is approved by Underwriters Laboratories Inc. in accordance with NSF/ANSI 61-2002e.
