POU drinking water faucet

Everpure designer drinking water faucets deliver a steady stream of premium quality filtered water from Everpure commercial grade water filtration systems. These separate filter faucets are available in eight stunning finishes and colors to match today's high end kitchen faucets.

For commercial grade water filtration

it's water filtration you can trust

The same commercial quality that makes Everpure the overwhelming choice for water filtration in restaurants is also available for your home. Everpure's exclusive precoat filtration technology combines Micro-Pure and a unique pleated filter membrane to reduce particles as small as 0.5 micron. This highly engineered design offers the largest filtering surface area, longer life and consistent performance.

Everpure Designer Drinking Water Faucets feature:

- > Sleek versatile design
- > Selection of eight beautiful finishes to match the most popular designer faucets
- > Lead-free
- > Forged brass construction
- > Aerator tip provides even, clear stream of filtered water
- > Ceramic disc type valve
- > Easy Installation
- > 0.5 GPM flow
- > Certified to NSF/ANSI 61
- > RO compatible with the use of a separate air gap
